Dear Parents and Carers,

Welcome back to Term 3. We hope all students enjoyed their school holidays and are looking forward to a very exciting and productive ten weeks of learning.

Our new Sub School newsletters will commence next week. Staff from each sub school will now produce a fortnightly newsletter reporting on their programs and activities to the parent/carers of their sub school students. Additional information in the sub school newsletters may include Principal and Student Wellbeing Team updates etc.

The larger whole school newsletters will be produced once a term so families are able to read about the exciting programs and activities happening across the school.

The parent opinions surveys will be produced once a term so families are able to read about the exciting programs and activities happening across the school.

In addition to paper copies of the newsletters being distributed to families, they will also be available for download and viewing on the school website at www.humevalley.vic.edu.au.
